

Simply the best fixation.

FISSO
Swiss Made

Articulated arm with pressure transducer plate holder

Invasive arterial blood pressure measurement is an essential part of cardiovascular monitoring in the ICU patient. Our pressure transducer plate holder set is the ideal solution for mounting at the ICU bedside.

Applications:

- Invasive arterial blood pressure measurement
- Cardiac catheter procedure

Articulated arm with transducer plate holder for contact boards

Features:

- Mechanical central clamping mechanism for maintenance-free use and long lifespan
- Extremely flexible and precise positioning
- Maximizes safety for the patient
- Peripheral components such as clamps, columns, quick release system etc.
- Sustainable application
- Swiss Made

FISSO your partner for rapid, secure and robust positioning of equipment.
